The compressed file contains everything you need to install the ROM published by the manufacturer. In the Zip you will find the USB Driver, the Flash tool, the Flash file and an instruction manual. This is all you need to complete the ROM flashing or installation on your mobile device. The flashing of a mobile device consists of installing, debugging or updating the Stock Firmware (OS) of your smartphone. Its function is therefore to correct faults from the factory that hinder the regular activity of your mobile. From boot failures, problems with the IMEI, waste of resources in idle processes and general failures. File name: Alcatel OneTouch Pixi 4 4034X MT6580.zip File size: 923 MB Android version: 6.0 Flash Tool: SP Flash Tool for Windows | SP Flash Tool for Linux How to install: Here is a tutorial Direct link Download and extract the Alcatel One Touch Pixi 4 4034X compressed file and confirm successful extraction of the files. After extracting the package, you will be able to get the firmware, flash tool, driver and installation how-to guide . Install the USB driver on your computer, and confirm its correct installation. Follow the tutorial step by step to install the firmware on your Alcatel One Touch Pixi 4 4034 X Here is a full tutorial Caution : SP Flash Tool: If you want to get the latest version of SP Flash Tool, click on the following link SP Flash Tool for Windows or SP Flash Tool for Linux Backup: If you are going to proceed to install the firmware on your Alcatel One Touch Pixi 4 923X Please backup everything because your data will be deleted after installing the firmware. The manufacturer of the mobile equipment officially releases the firmware shared above. And the firmware fixes many of the common issues like if you get boot problems, an error caused by software glitches, a crash, or a general performance problem.
